

ACEN Outcome Disclosure Information for the RN-BSN Program

Completion Rate: The program completion rate is calculated based upon the on-time program completion rate from the first nursing course through completion of the courses required for conferral of a certificate, diploma, or degree.

RN-BSN Disaggregated Program Completion Table

Program Completion – Disaggregated by Program Start Date								
Year	January 2025	April 2025	July 2025	October 2025	April 2026	October 2026	April 2027	October 2027
Student Enrollment Count at Start of First Nursing Course	2	1	1	4	3	3	N/A	N/A
On-time Graduates Count	1/2	0/1 (student withdrew)	N/A	N/A	N/A	N/A	N/A	N/A
Disaggregated Program Completion Rate	50% (met benchmark)	0%	N/A	N/A	N/A	N/A	N/A	N/A

Job Placement Rates: Job placement rate data is collected within one (1) year of graduation to determine who is employed in a position for which the nursing program prepared them (RN role and/or personal or professional growth). This data is collected by the academic year (July 1 - June 30). The graduate response rate is calculated by the number of graduates successfully contacted divided by the number reporting having secured employment in the RN role or personal/professional growth.

RN-BSN Aggregated Job Placement Rates Table

Job Placement Rate – Aggregated for the Entire Program			
Year	2025-2026	2026-2027	2027-2028
Response rate	100% (1/1)	% (x/y)	% (x/y)
Job Placement Rate	100 % (1/1)	% (x/y)
